Hi Michael,

I can't thank you enough for the support of Altus Traffic Management at yesterday's creosote log cleanup project. The assistance of your flaggers was integral to the success of our project and we really appreciate your contribution to our effort.

Sara and Winston did a fantastic job keeping our work site safe for both our crew and pedestrian/bike traffic. They were punctual, professional, knowledgeable and a pleasure to have on site. Please relay to them how much we appreciated their presence.

Thanks to your support, we succeeded in removing over 10 tons of pollutant laden logs from Seattle's urban shoreline parks. Many thanks for your generosity and support!

Kindly,

Katelyn Kinn
Pollution Prevention Coordinator
Puget Soundkeeper Alliance
